

Counting Made Easy With New Toddler App

Melbourne, Australia - Learning to count is as easy as 1, 2, 3! With the release of Toddler Counting 123 by kids app developer GiggleUp, your toddler can discover the simple joy of learning as they tap and count along. Designed for young minds and tiny fingers, the gameplay is simple and without fuss - filled with heaps of lighthearted fun and even more room to grow!

Children don't need to sort through complicated menus. Jumps straight into the fun with just one tap! Parents can determine the pace of learning with the customizable options available via settings.

Count along and learn the names of all your favourite animals, toys, household objects and more! Learn in a fun environment complete with cool sound effects, clear and pleasant voice narration, as well as positive feedback to encourage and to help young players stay motivated.

All recorded by native speakers, you can now learn to count in 8 exciting languages. So count away! Includes: English, Bokmål, Norwegian, Danish, Dutch, French, German, Italian, Japanese, Korean, Portuguese, Russian, Simplified Chinese, Spanish, Swedish and Traditional Chinese.

Available for download on: App Store, Google Play and Amazon Appstore

ABOUT GIGGLEUP

We are a team of designers and developers motivated by the same passion to create quality apps that can be enjoyed by kids and contribute to their learning. Our apps have received awards and recognition from various groups - among them are The Parents' Choice Foundation, Children's Technology Review, The New York Times and The Guardian. Some major areas of early childhood development our apps target include spatial reasoning, problem solving, first words, number literacy, preschool science, and more. All our apps comes fully available in multiple languages. Our voice recordings are produced in-house and are performed by native speakers of the chosen language to ensure the highest quality and accuracy is achieved. We reside in the beautiful city of Melbourne, Australia, where our days are spent working away on the next new app, or enjoying a good cup of coffee.
